

Grand JURIX 2000 READY RECKONER

Before using Grand JURIX, please carefully follow installation instructions given on the CD-Pack.

STARTING GRAND JURIX 2000

Insert CD- ROM containing the database of your choice in the CD-ROM Drive.

Start Grand JURIX 2000 by clicking on the **Grand JURIX icon**.

SEARCHING ON Grand JURIX 2000

You can see the main screen showing the menu bar and three windows.

1. Select the database you wish to search by clicking on **Databases**. First level allows you to choose the database – After choosing database you can choose any of the following sub categories like - **Case-laws, Acts, Rules or Notifications**. You can further choose the specific database under each of the above sub-categories.
2. Search on any word or phrase in the **Search For** Box under **Search in Text**.
3. You can narrow down your result by selecting options available under **Search In – Entire Text, Titles only, Head Notes, Catch Note, User Note**. After selection click on **Search** Button.
4. You can also combine **Search in Text** with **Search on Indices**. Alternatively you can narrow down the results you obtained as a result of 2 & 3 by subsequently using **Search on Indices** like **Act & Sections, Notifications, Subject Index, Courts and Judges** in combination or stand-alone. Here again there are sub-levels you can choose. After selection click on **show result button**  which is the first button at the bottom left.

VIEW RESULTS

You can see the cases on the top right window. Clicking on any case will show you the details in the bottom right window.

SPECIAL FEATURES TO CUT SHORT YOUR RESEARCH TIME :

SAVE QUERY FOR LATER REUSE : You may like to repeat certain queries without having to go through the whole process from start. To do this easily, once you have done a search and are satisfied with the result, you can save the query by clicking  and choosing an easy-to-re-call name. You can view this saved search by clicking  and choosing **Open Search**.

SAVE WHOLE/PART OF RESULT (JURIXPAD) : To collect and save parts of the required data in your personal note pad, right click on the mouse in the text-viewer and select '**Send to Jurixpad**' or click  button.

DOWNLOADING INTERIM UPDATES FROM THE WEB

Go to www.grandjurix.com and click on **Interim Updates**. The latest update details will be visible. You can select both current or previous dates by clicking on the relevant period. After this, choose the database you wish to download, to save the EXE files in the default directory on your hard disk. Now doubleclick on the downloaded file, to extract the databases to the **Grand JURIX** directory.

When you open the Grand JURIX application click on **File**, select **WebUpdate**. Choose **Activate WebUpdates**. This will allow you to search on the CD as well as the data downloaded from the web.

IMPORTANT INSTRUCTIONS

- Read full instructions before installing.
- If you wish to uninstall - Insert the '**Protection Diskette**' and Click '**Start**', Select '**Programs**', Go to '**Grand JURIX 2000**' and click on '**Grand Jurix 2000 Uninstaller**'.
- To re-install after un-installing follow the same instructions as during the first time.
- In case you have a problem in accessing the CD please check whether you have inserted the correct CD for the database you wish to access. Also check whether the CD is of the latest quarter.

For any queries, please e-mail support@grandjurix.com or contact your friendly neighbourhood support executive at the numbers given on the CD-Pack.
